

Assessment Rubric

Assignment (which architecture): Internet

Team: T34

Topic	Assessment and suggestions for the architects*
Diagrams	Good
Clarity	Good It seems to be connections, but please describe the meaning of the lines and arrows (Fig. 1,2). Fig. 8 has boxes used for different meanings and that confuses a little, at first. There are several icons that might have a precise meaning. What is it?
Consistency	Very good
Completeness	Good
Sufficient Level of detail	Very good
Text Description	Very good
Clarity	Very good
Consistency	Very good
Sufficient?	Good I would like to see more explanations about how the proposed architecture addresses the requirements listed: load, faults, changes, diversity.
Correctness	Very good
Anything missed?	Very good
Will it work?	Very good
Summary	Very good

* Qualitative scale: Excellent (19-20), Very good (17-18), Good (14-16), Fair (10-13), Poor (<10)

Explanation:

Diagrams

- Clarity: Are all the figures clear? Is it easy to understand what they mean? Are they laid out in an intuitive way? Is it clear what colors mean? If necessary, is there a legend?
- Consistency: Are the shapes and lines used consistently? Is there anything (a shape or line) that means two different things? Are colors consistent, if used?
- Complete: Is anything missing that would make the diagrams more clear?
- Sufficient level of detail: Do the diagrams give enough detail? For example, are there some components that should be broken down more?

Text Description

- Clarity: How clear is the description?
- Consistency: How consistent is the description with the diagrams?
- Sufficient: Does the text give enough information?

Correctness:

- Did the architects miss anything, such as did they forget a component?
- Will anything not work?

Summary:

- How confident are you that you could implement the design as it is described?
